

## Your carry-on

### Note:

**All Airlines are different.  
This packing list is based on  
Southwest Airlines.**

Carryon bag dimensions are limited to  
**10 x 16 x 24 inches.**

You must store your carryon in the overhead bin.  
Storing it wheels facing out helps us get wheels up  
faster!

If you're traveling with a pet, carriers are counted  
as either your personal item or carryon.

**A friendly reminder:** If your carryon does not fit  
the dimensions above, we will be forced to check it  
at the gate. It will be safely stowed below the  
aircraft for the duration of your flight, and you will  
pick it up at baggage claim, not the gate, upon  
arrival to your final destination. Assistive devices  
and strollers may be claimed at the gate/jetbridge.

**Ouch!:** Please make sure that any sharp objects  
(especially needles, syringes, and other items  
needed for medication) are properly covered and  
secured to prevent injury to yourself and our  
Employees who care for your bags.

Please alert a Flight Attendant if you use a  
needle/syringe while onboard so we may provide  
you with access to a disposal container

## Your personal item

Personal-type items include purses, briefcases, cameras, food containers, or laptops (case included).

Your personal item must be stored under the seat in front of you, fitting within **18.5 x 8.5 x 13.5 inch dimensions**.

*A friendly reminder: If your personal item does not fit under your seat, you will be asked to place it in an overhead bin.*

## Can I have a backpack and a carry-on?

**Southwest** allows one personal item in the cabin per passenger. These items, such as a briefcase, laptop, **backpack** or camera bag, **may** be carried on in addition to the one allowable **carry-on** bag.

## Is toothpaste considered a liquid on the plane?

**Liquids** and Gels. You may only carry on **liquids** and gels that are in 3.4-ounce containers or smaller. **Liquids** include toiletries such as shampoo, after-shave, hand or body lotion, mouthwash and **liquid** makeup. Toiletries often found in gel form include **toothpaste**, deodorant and lip balm or lipstick.

## Can I bring snacks on a plane?

You **can bring** your own food from home to eat in the airport & on the **plane**. The TSA's only restrictions on food are: ... **Do NOT bring food to the security checkpoint unwrapped**. Food must be wrapped or in a container

## Do pills need to be in prescription bottles when flying?

Medication in liquid form is allowed in carry-on bags in excess of 3.4 ounces in reasonable quantities for the flight. ... TSA does not require passengers to have medications in prescription bottles, but states have individual laws regarding the labeling of prescription medication with which passengers need to comply. For best results: Have medication in prescription bottles!

## What should you not pack when flying?

To be on the safe side, stick to the rule: all liquids must be in containers of no more than 3.4 ounces or 100ml, and **all containers must fit in a clear, one quart sized zip top plastic bag**. You can still travel carry-on only with liquids

## EpiPen?

According to the TSA, passengers are allowed to bring their epinephrine on board a flight. However, **you** may need to show the printed label that identifies the medication (e.g., Adrenaclick®, Auvi-Q™, **EpiPen**)

## Can you bring Benadryl on a plane?

Medication in liquid form is allowed in **carry-on** bags in excess of 3.4 ounces in reasonable quantities for the flight. It is not necessary to place **medically required liquids** in a zip-top bag. ... **You can** travel with your medication in both **carry-on** and checked baggage.

## Can you take tablets in hand luggage?

**Medicines**, medical equipment and dietary requirements. **You're** allowed to **carry** the following in your **hand luggage**: essential **medicines** of more than 100ml, including liquid dietary foodstuffs and **inhalers**.

## How many quart size bags can you have in your carry on?

3-1-1 for carry-ons = 3.4 ounce (100ml) bottle or less (by volume) ; **1 quart**-sized, clear, plastic, zip-top bag; **1 bag** per passenger placed in screening bin. One-quart bag per person limits the total liquid volume each traveler can bring. 3.4 ounce (100ml) container size is a security measure

## **Liquids and Gels:**

You may only carry on **liquids and gels** that are in 3.4-ounce containers or smaller. Liquids include toiletries such as after-shave, hand or body lotion, mouthwash and liquid makeup. Toiletries often found in gel form include toothpaste, deodorant and lip balm or lipstick. Transfer liquids and gels to smaller containers if the original package contains more than 3.4 ounces, or purchase special travel sizes. You can't take a large toothpaste tube with only a little left in it, or half a large bottle of shampoo. Additionally, **all your bottles of liquids and gels must fit in a single 1-quart plastic bag.**

## **Makeup:**

Liquid foundation, liquid eye liner, mascara, lip balm, cream blush, lip stick and any other makeup in liquid or gel form has to meet the 3.4-ounce container limit and must fit in a **1-quart plastic bag**. Powdered or pressed makeup, baby powder, talcum powder and other toiletries that aren't in a liquid or gel form aren't regulated. Pack them in your carry on as you wish.
